

CLOSEDBOARD FENCE 0.9 HIGH

1. Posts set at 3 metres apart (centres). Posts dug down to a depth of 600mm and concreted in.

2. Top rail 25mm down from top of post.
Bottom rail 510mm down from top of post

3. Gravel board 750mm down from top of post.

4. Capping rail gets nailed on top of top rail.

5. Feather edge boards cut to 750mm. This allows small overlap of gravel board. Feather edge butted up to capping and should have a 25mm approx overlap on gravel board.
Feather edge boards must overlap each other by 25mm approx.

Meter Kit includes

- 4 inch nails for rails
- 3 inch nails for gravel boards
- 2 inch nails for feather edge boards
